

# Donna Kether

## Web Developer

Full stack

---

### About me

---

### Kether Vieira Marcellino

Based in São Paulo, SP - Brazil

[donnakether@gmail.com](mailto:donnakether@gmail.com)  
[github.com/donnakether](https://github.com/donnakether)

[new \(currently migrating to a new website\) - devdon.com.br](#)

[old - donnakether.com](#)

---

I have been a self-taught web developer since 2008, having previously worked as a photographer and audiovisual artist. I gradually transitioned to working solely as a freelance web developer specializing in WordPress websites for independent news agencies and organizations.

---

### Tech Skills

---

PHP - JS - HTML & CSS - MySQL - GIT

React/Redux - ReactNative - Angular and a little Vue

Wordpress Themes and Plugins development including Headless WP with React and Divi Theme module extension.

Agile development

UX/UI

Docker

---

### Experience

---

#### Dev Don - Donna Kether / Website Developer

since January 2011, SÃO PAULO

Freelance web designer and full-stack developer. Develops virtual store projects, independent news and content portals, portfolios for artists and institutional websites, among other projects and web applications.

Works with partner projects from other development companies and technological solutions, providing support for WordPress projects, especially those using the Divi theme/builder.
