About me

I have been a self-taught web developer since 2008, having previously worked as a photographer and audiovisual artist. I gradually transitioned to working solely as a freelance web developer specializing in WordPress websites for independent news agencies and organizations.

Tech Skills

PHP - JS - HTML & CSS - MySQL - GIT

React/Redux - ReactNative - Angular and a little Vue

Wordpress Themes and Plugins development including Headless WP with React.

Agile development

UX/UI

Docker

Experience

Dev Don - Donna Kether / Website Developer

since January 2011, SÃO PAULO

Freelance web developer. Develops virtual store projects, independent news and content portals, portfolios for artists and institutional websites, among other projects and web applications. Also help to fix issues and bugs on existing projects

Works with partner projects from other development companies and technological solutions, providing support for WordPress projects,
